RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

We are writing to you today to urge you to support the upcoming Comcast and NBC Universal joint venture. We believe that Comcast has already proven itself as a company that is dedicated to investing in America's future and that this partnership would offer consumers even more innovative technology and programming.

Gateway Chamber of Commerce is one of the area's largest chambers, serving 1,500 members. We put together 175 events year-round and have been consistently able to rely on Comcast as a participant for everything from our training sessions to our Annual Mayors Dinner. We have also collaborated with individuals from the company serving on our board.

Comcast understands the benefit of encouraging entrepreneurship through local businesses, which in return will create new jobs to help revive our economy. We also appreciate Comcast's dedication to expanding broadband throughout our community. Comcast also helps to prepare our children for a future of success by providing complimentary cable and broadband to our schools. Having access to these technologies at a young age is invaluable and helps to make Gateway schools incubators for success. We're confident Comcast will continue to help local business leaders adapt to the future and make America more competitive.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Coyle", written over the name and title of the signatory.

James R. Coyle
President
